

# I Spy Activity Card

A classic game that requires nothing but the world around you!

## METHOD

1. This can be played indoors or outdoors with your child
2. Start the game by saying "I spy with my little eye something beginning with..." - for example 'B'
3. If your child needs some support you can describe the object as well giving the initial sound of what you have seen - i.e. "this object begins with the sound b and you can kick and throw it"
4. What else can you spy?
