

Number Skittles Activity Card

This activity will support your child to count and to recognise numbers. Learning about number and counting language, working memory and visualisation. Children learn best through real life experiences and can be incorporated during every day activities like setting the table, counting buttons when dressing, climbing the stairs and counting finger and toes.

WHAT DO I NEED

1. Empty bottles
2. Water
3. Rice
4. Food colouring (Optional)
5. Card/paper
6. Pens/pencils
7. Sellotape

METHOD

1. Collect 5 to 10 bottles. You can fill the bottles with coloured water or rice
2. Encourage your child to number the bottles
3. Set the bottles out in the home or garden and enjoy knocking them down
4. Your child could keep a tally of the number bottles that are knocked down
5. The bottle could be used to create a number line and then find items to represent that number for example: 1 teddy, 2 cars, 3 stones etc
