

# Outside Drum Activity Card

Being outside encourages your child to use all their sense. To get them moving and listening, have them collect some sticks on your next walk and then explore your garden to find the best drum. Make sure to explain to them beforehand if there are any areas they should not hit or go near.

## WHAT DO I NEED

1. Two sticks, pieces of wood or drum sticks

## METHOD

1. Go into the garden with your child encourage them to explore how different sounds are made by tapping or stroking objects in the garden with their stick or piece of wood for example, the garden fence, path or patio, upturned plant pots etc
2. Encourage your child to discuss and compare the sounds, discuss how can they make a quiet sound or how can they make a loud sound?
