

# Butterfly Feeder Activity Card

Encourage beautiful butterflies to visit your outside space close to your home with this easy butterfly feeder!

## WHAT DO I NEED

1. A large stick
2. A collection of leaves
3. Beads or buttons
4. Garden Wire
5. Scissors
6. String
7. Hole punch
8. An orange

## METHOD

1. Use the hole punch to punch a hole in every leaf (make sure to do some extra in case the leaves break when threading)
2. Thread your leaves onto the string to make a garland
3. Cut off a length of garden wire and attach a button or bead at the end, then add some more beads to create a pattern
4. Cut the orange into segments and add onto the wire as well
5. Now put it all together by wrapping the leaf garland and bead string around the stick, attach another loop of string to hang your feeder and place outside on a hook of tree branch
