

Malleable Play 2: Cornflour

Watch the fun and sensory experience of feeling the texture. Young child will be keen to explore using their whole bodies. You can create investigations with older children and talk about colour change, weight, adding more or less etc. For toddler's simple pots, spoons and containers can be added for additional fun to promote transferring and scooping skills.

WHAT DO I NEED

- Cornflour
- Water
- Bowl
- (Optional) Essence, food colouring or glitter

METHOD

1. Put the cornflour and water in the bowl
2. Work together to mix up the flour and water (don't add too much)
3. Keep stirring until the cornflour is gloopy but not too runny
4. Add essence, food colouring or glitter if you want
5. Let the fun begin!
