

Autumn Hedgehogs Activity

Why not take your little one on a nature walk to collect some fallen autumn leaves to create a cute little hedgehog?

WHAT DO I NEED:

- Fallen autumn leaves (choose smaller ones if you can)
- Cardboard
- Glue
- Glue brush
- Black felt tip pen
- Buttons
- Scissors

METHOD

- Draw a rough hedgehog template on the cardboard squares using the black felt tip pen
- Cut around the black outline of your hedgehog templates using scissors (smaller children may need a hand with this)
- Stick the autumn leaves onto the body using glue (try to arrange them in a prickly pattern to resemble the hedgehog spikes)
- Draw on a little black eye using the felt tip pen
- Stick on a button nose with glue
- Stick a lollipop stick onto the back of the hedgehog to use them as puppets or to decorate plant pots
