Could you and your little one be our next record holder for the tallest Sunflower?

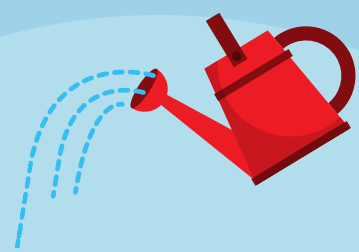

2021 RECORD HOLDER:
396.24cm
 Isaac at
 Whitwick Day Nursery

What you need to do:

- 1 Plant your Sunflower in a nice sunny spot and measure it each week, noting it's height on this chart.
- 2 Keep us updated with photos and how your flower is growing via Facebook, Instagram, Twitter and Tiktok by tagging @kiddicar.
- 3 Towards the end of the competition, take a photo of you with your amazing Sunflower and send it to us with your flower's tallest height in cm to: marketing@kiddicar.com or @kiddicar by Monday 8th August 2022.
- 4 The tallest Sunflower winner will be announced on Tuesday 9th August and will receive their prize of a bug themed book and games bundle with Books & Pieces!

Our Sunflower top tips!

- Plant your seeds in a weed free area with lots of space to grow.
- Water your Sunflower every day to keep it strong and healthy.
- Your Sunflower should begin to flower after 8-10 weeks!
- When your Sunflower starts to get nice and tall you may need to support it with bamboo canes.
- Even though our competition ends in August, your Sunflower should continue to grow through to mid-September!
